

Local Department.

Walhalla Knights of Honor meet Friday night.

A good sewing machine for sale at this office on reasonable terms.

Read carefully the many now advertisements in this week's issue.

Millet lots are being harvested and yielding an abundance. Clerk Stribling has about one-fourth of an acre which cannot be beaten.

Mr. Alex. Nimmons has our thanks for a very fine Keowee bottom watermelon. It reminds us of old times when such were common about Old Picketts.

The weather for several days has been showery. Crops are enjoying the alternation of rain and sunshine and bids fair to fill our cribs and barns in the fall.

Col. F. Melchers, editor of the Charleston Zeitung, is in town. Col. Melchers is one of the members of the Legislature from Charleston. We welcome him cordially to Walhalla.

Mrs. W. M. Woodin will accept our thanks for a large box of grapes, sent us on last Saturday. They were of excellent variety—juicy and sweet.

The brewery is a pleasant place of an evening, with its shady walks and neat summer houses. Kaufmann always has on hand good beer to refresh the weary or quench the dry.

Scarlet fever kills children, and so do worms. Shiner's Indian Vermifuge will destroy and expel worms wherever they exist in the human body.

The Oconee County Singing Convention will meet at Shiloh Church, in this County, on Friday, before the third Sabbath in August, the 19th instant.

The abundant fruit crop of this region could be made profitable if the owner would dry it. There is always a fine demand for dried fruit at good prices. This is better than distilling it.

With Moore and Hicks in the Preparatory and Primary Departments respectively, we expect thorough discipline and instruction to the children and general satisfaction to the patrons.

The Baptists have had a considerable revival at Bethlehem Church, about twelve miles above Walhalla. Up to Sunday morning six had joined by experience and others were expected to join. The meeting was conducted by Revs. West and Owens, of this county, assisted by Rev. Thorrell, of Greenville.

A series of meetings will be held in the Baptist Church, beginning on next Sunday and continuing from day to day. Rev. D. G. Lyon is expected to do most of the preaching. The members of the different congregations and the people generally are invited cordially to attend. W. W. SANDERS, Pastor.

M. H. Bryce has built a new market house on Main street below Watson's old stand and has now opened it for the sale of beef. He has a good cellar and proposes to furnish fresh beef at all hours during every day of the week. See his advertisement for favorable terms, &c.

Maj. Ben. Sloan has been unanimously chosen as Professor of Mathematics and the Physical Sciences in the Adger College, and has accepted the position. He is a graduate of West Point with high distinction and would fill the chair of mathematics with credit in any institution.

Commodore W. Moore, a graduate of Newberry College, has been unanimously elected to and has accepted the position of Principal in the Preparatory Department of Adger College and adjunct Professor of the Classics in the Collegiate Department.

An interesting time is expected at the meeting at Connersboro next Sunday morning at 11 o'clock, under the auspices of the Y. M. C. A. of Walhalla. Mr. J. M. Stribling, Col. J. J. Norton and Maj. S. P. Dendy, members of the association, will be present and address the meeting. Col. H. S. VanDiver will conduct the exercises.

The Methodists have been holding a protracted meeting at Westminster for several days. We hear that several have joined and the meeting is still progressing with favorable prospects. The meeting has been conducted by Revs. Mann and Neville. We hear the Rev. Sisk, of the Baptist denomination, has been working with them.

The excursion train, which left Charleston on the 6th instant, reached Walhalla on Tuesday morning, the 7th, at 6 o'clock, being about seven hours behind time. The train brought to Walhalla between seventy-five and one hundred visitors, making them hereabouts lively for hotel keepers and livery stable men. A large crowd stopped at Anderson to attend the Grange meeting.

John O. Hicks, favorably known to the people of Walhalla as a teacher, has been unanimously chosen to the post of Principal in the Primary Department of Adger College. There will be no complaints on the part of patrons in this department on the ground of faulty discipline or instruction. Hicks controls and instructs his scholars, as our people know by experience.

We have heard that a protracted meeting at Pendleton has aroused considerable interest and that several have joined the Baptist Church at that place. Up to our last information six had joined and a good state of feeling still prevailed. The meeting was attended by Rev. D. G. Lyon, assisted by Dr. Mendonhall. P. S.—Since writing the above a private letter from Pendleton to a citizen of Walhalla, by Tuesday's mail, stated that eighteen had joined the church and the meeting was still progressing.

Rev. John Riley, of Laurens, has been elected Professor of the Ancient Languages in Adger College, but we do not know whether he will accept. He was for a number of years President of Laurens Female College and pastor of the Presbyterian Church at that place. He is a graduate of the old South Carolina College and is a ripe scholar. P. S.—Since the above has been put in type, Col. Norton has received a letter from Mr. Riley which, though not a formal acceptance, amounts to a satisfactory assurance of his acceptance of the professorship to which he has been elected. This is a good selection and gives new confidence in the College.

We have patiently waited on many of our patrons, both for subscription and advertising for six to ten years, and they must agree with us that we have shown remarkable patience. The crops of the present year bid fair to be unprecedently good and we want all our patrons to keep in mind their dues to the COURIER. Let them determine to have a clear record with the paper by the first of next January. We have our books fully posted and will be glad to settle with our patrons at all times, between this and January. We expect full settlement by that time. As you sell your crop in the fall call and settle, and if you have or can get the money, settle as soon as possible, as we need our dues.

Rumor has variously reported that from five to twelve hundred tickets were sold in Charleston for excursions on the 6th instant to the upcountry. A number was sold along the line to Columbia, and nearly two hundred in that city. The train was behind time in reaching Columbia and was there broken into two trains. It is thought about eight hundred kept the main line to Greenville, Anderson and Walhalla, while an equal number is estimated to have gone up the Spartanburg road. These excursions pay the railroad and serve to unite the up and low country by the ties of acquaintance and personal friendship. We like to see them.

Oakway Locals.

August 3d, 1877.
Rain is needed very much. Some good indications just now.

A little daughter of Rev. E. L. Sisk died last night about 2 o'clock of the malignant fever in a very malignant form. Did not eat anything for twelve days before it died.

The assessors are here to day taking returns of property. It is very remarkable how many old buggies and wagons are returned.

The people are hopeful of the present and future taxes being properly applied to the government expenses, and that honest officials will handle the people's money; that our long our State will become prosperous and confidence will again be restored in our State. It is hoped that a proper watch will be kept on our legislators and State and County officers, and if any prove treacherous that a just punishment be meted unto them. But if they continue faithful let the people give them encouragement. O. C.

A LEADING HARDWARE HOUSE.

THE NEW ARRANGEMENTS MADE BY MESSRS. J. E. ADGER & CO.

Among the business houses whose names are familiar not only in Charleston, but wherever Charleston trade extends, and whose interests have for years been identified with the progress and prosperity of this city, is that of J. E. Adger & Co. This house was established by Mr. James Adger in 1802, the first firm name being Bones & Adger. After more than a quarter of a century of successful conduct of the business Mr. Adger withdrew from active participation in the hardware firm, although retaining a controlling interest in it, and after several changes the firm name became Wm. & J. E. Adger, both members being sons of the original founder of the house. This style was retained until 1853, when owing to the death of Mr. Wm. Adger the firm was dissolved, and the name of J. E. Adger & Co., which has been retained ever since, was adopted. The present members of the firm are Messrs. J. Ellison Adger, A. Med. Brown, E. D. Robinson and Ellison B. Smyth.

Messrs. J. E. Adger & Co. have recently made some changes and improvements in their warehouses and stores, which demand more than a mere passing notice. The extensive and varied nature of their trade requires large accommodation, and accordingly they now occupy the two large three-story buildings fronting on Meeting street, and known as numbers 137 and 139, and also the rear of 135. No. 137 is exclusively devoted to their retail business, and there may be seen great numbers of guns, ploughs, reapers, cultivators, and other agricultural implements in which they are among the largest dealers in the South. They put especially the celebrated Farmers' Friend ploughs, of which they are the State agents, and which are now justly considered one of the leading agricultural implements of the South. These ploughs received premiums in 1875 at every fair in South Carolina at which they were exhibited. Other articles worthy of special note, to be seen at this establishment, is a beautiful sample of the Taylor Cotton Gin made in Georgia, and handsome enough for a piece of parlor furniture. These guns are in very general use, and are said to give great satisfaction. These gentlemen are also agents for Schofield's Cotton Press for hand, horse or steam power, Smith's Hand Power Cotton Press, the Excelsior gun, various hand powers, the rotary harrow, and other agricultural implements. Firearms of all descriptions, ranging from a Derringer to the best English breech-loading double barrel shotgun, and from a parlor pistol to an old field smooth-bore musket, can be seen here and brought at the lowest market price. Cutlery from the best English and American manufacturers is a specialty, and all wants in this line, from the dainty lady's pocketknife to the formidable sheen "bars of farmers," can be here supplied. McClellan and English saddles, fine harnesses, and superior saddle-clothes and whips are to be found on the saddle side of the store, and repairing is carefully and skillfully done in the workshops in the upper stories.

The wholesale department at No. 139 is one of the most extensive and complete in the South, and the stock is selected with a special regard to adaptability to the trade of North and South Carolina, Georgia, Florida and Alabama, with all of which States the firm has long established business connections. The rear of 135 is used as a warehouse for heavy and bulky articles, and as Messrs. J. E. Adger & Co. are among the largest importers of Swedish Iron, English hollowware, English trace chains and hoes in the United States, and deal largely in agricultural boilers and pans for the manufacture of sugar and molasses, it will be readily understood that they require a large space for storage. The stock in all branches has been thoroughly overhauled and replenished, and the firm is now prepared to continue its dealings with its numerous old customers, and to open transactions with new ones on the most favorable terms. Mr. John V. McNamee, lately of the firm of Hart & Co., is connected with this house, and will be pleased to receive, from his friends, their patronage.

Gen. Stewart L. Woodford is still talking about how pleasant he found everything in Mississippi. He now says: "The three things that gave me most encouragement are these: First, everybody, white and black, seemed to be at work. Second, there were as many acres of corn under cultivation as there were of cotton. Third, the planters, leading business men and leading lawyers, were evidently sincere in their desire to give the Union their hearty and effective support." After speaking about the South on the stump for ten years he is surprised to find that he knows so little about it.

IDLENESS AND SIN.—Some temptations come to the industrious, but all temptations attack the idle. Idleness is not a temptation of the devil so much as they do prompt the devil to tempt them. Idleness sets the door of the heart ajar, and asks Satan to come in, but if we are occupied from morning till night, should Satan get in, he must break through the door. Under sovereign grace, and next to faith, there is no better shield against temptation than obedience to the precept that ye be "Not slothful in business; fervent in spirit, serving the Lord."

SALT LAKE CITY, August 1.—The body of Dr. C. F. Winslow was cremated. His heart was taken to Nantucket, his native place, and his ashes to the grave of his wife near Boston.

There is a negro in Iberville parish, La., 116 years old, who attends to a corn crop, catches drift wood, patches his clothes, abuses "lazy negroes," has \$300 cash, and yet never pretended to have seen or waited upon George Washington.

A "joint stock company with a capital of \$300,000," proposed as the nucleus of a Liberatorian migration scheme, means that some shrewd white men are trying to relieve Carolina negroes of any spare change left over from the Freedman's Bank robbery.

ELECTION NOTICE.

AN ELECTION will be held at Seneca City, in Seneca Township, Oconee County, S. C., on FRIDAY, the 17th day of August next, pursuant to the provisions of an Act of the General Assembly, entitled "An Act to authorize County Commissioners to submit to the qualified electors of their several counties a proposition to alter the fence laws and to provide for effectuating the same."
Polls will be open at 8 o'clock A. M. and close at 4 P. M.
Managers appointed are: W. A. Lowery, I. D. Finckman and John M. Gillison.
The form of ballot for those desiring the adoption of said Act shall be "FENCE STOCK IN." The form by the opposition shall be "FENCE OUT IN."
Managers will report on Saturday, the 18th instant.

THOMAS RIBB,
S. M. CRAWFORD,
R. S. RUTLEDGE,
County Commissioners.

If not sold previously, it will be sold at auction to the highest bidder at Seneca City, on that day. The undersigned will give all needed information. Terms accommodation.
W. L. HARBIN,
W. A. LOWERY.
July 19, 1877 35-7t

THE AMERICAN PEOPLE.—No people in the world suffer as much with dyspepsia as Americans. Although years of experience in medicine had failed to accomplish a certain and sure remedy for this disease and its effects, such as sour stomach, heart-burn, water-brash, sick headache, constiveness, palpitation of the heart, liver complaint, coming up of the food, low spirits, general debility, etc.; yet since the introduction of GREEN'S AUGUR FLOWER, we believe there is no case of dyspepsia that cannot be immediately relieved. 30,000 dozen sold last year without one case of failure reported. Go to your druggist, Dr. R. E. Norman, and get a sample bottle for 10 cents and try it. Two doses will relieve you. Regular size 75 cents.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chills, Periodic Biliousness, Malaria, and all the diseases arising from malarious, marsh, or miasmatic influences.

This is a compound remedy, prepared with scientific skill from vegetable ingredients, which rarely fails to cure the severest cases of Chills and Fever and the concomitant disorders. Such a remedy the necessities of the people in malarious districts demand. Its great superiority over any other medicine yet discovered for the cure of Intermittents is, that it contains no quinine or mineral, and these who take it are free from danger of quinine or any injurious effects, and are as healthy after using it as before. It has been extensively employed during the last thirty years in the treatment of these distressing disorders, and so unvarying has been its success that it has gained the reputation of being infallible. It can, therefore, be safely recommended as a sure remedy and specific for the Fever and Ague of the West, and the Chills and Fever of the South. It counteracts the miasmatic poison in the blood, and frees the system from its influence, so that fever and ague, shivers or chills, once broken up by it, do not return until the disease is again contracted.

The great variety of disorders which arise from the irritation of this poison, such as Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Spasmodic Affections, Hysterics, Faintness in the Bowels, Colic, Paralysis, and derangement of the Stomach, all of which become intermittent or periodical, have no speedier remedy than Ayer's Ague Cure, which cures them all alike, and protects the system from future attacks. As a preventive, it is of immense service to the communities where Fever and Ague prevail, as it stays the development of the disease if taken on the first approach of the premonitory symptoms. Travellers and temporary residents are thus enabled to defy these disorders, and few will ever suffer if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpidity, it is an excellent remedy; it stimulates the organs into healthy activity, and produces many remarkable cures where other medicines fail.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
For sale by
DR. R. E. NORMAN.

July 19, 1877

STILL SELLING AT COST

NOTWITHSTANDING the immense sales of the past two months. We have been receiving large stocks every week of fresh and desirable goods, especially adapted to the Walhalla trade, and our stock is full and complete and will be kept so.

We have remaining a few of the goods purchased from Waller, Watson & Co., which we are selling below New York cost, and some decided bargains can still be had.

Our new and fresh Dry Goods, Groceries, Leather, &c., will be sold at bottom prices, and at lower rates than the same class of goods have been offered in this market.

Our mountain friends will find better bargains for their produce, either in cash or barter, than they usually find in Walhalla.

Coffee, Flour, Corn and Bacon are specialties with us.

To Arrive, The best Canvassed Hams, fresh and extra quality. Call and try them.

FOUZZ'S CELEBRATED Horse and Cattle Powders:

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines. It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, Glanders, Yellow Water, HEAVY COUGHS, DISTEMPERS, FEVERS, FOUNDRY, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite, gives smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Rinderpest, Hollow Horn, &c. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent, and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of the Lungs, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

DAVID E. FOUZZ, Proprietor, BALTIMORE, Md. Sold by Druggists and Storekeepers throughout the United States, Canada and America.
May 3, 1877 24 1y

Private Boarding.

D. B. MANN, Proprietor. THE above well-known House has recently been repaired and repainted, and is now open for the reception of visitors, who will always find a hearty welcome awaiting them. The table will be supplied with the best that can be had in the market. Good, and attentive Servants always on hand ready and waiting to pay every attention to guests. In connection with the House is a FIRST CLASS BAR ROOM, in which can be found at all times, the best brands of BRANDIES, WHISKIES, SEGARS, &c., &c. Also, near the House, will be found both NINE and TEN-PIN ALLEYS for the accommodation of those who wish it. No pains will be spared to render guests comfortable.
March 24, 1875 19
